OMARCHY AI / SOFTWARE-DEVELOPMENT WORKSTATION

KEYBINDINGS CHEAT SHEET

Every shortcut taught across all 25 modules, in one reference.

73 bindings across Hyprland, Tmux, Neovim/LazyVim, AI agents, and system recovery -- companion to the Stevinator Handbook (Volumes I & II).

`Super` = the Windows/Cmd key · `Prefix` = the Tmux prefix (`Ctrl+B` or `Ctrl+Space`)

Reference

HYPRLAND — ESSENTIALS

`Super + Space`	Open Omarchy menu (discover anything)
`Super + Return`	Launch terminal
`Super + Shift + Return`	Launch browser
`Super + K`	Show current keybindings
`Super + W`	Close window / kill process
`Super + Escape`	Open system menu

HYPRLAND — WINDOW MANAGEMENT

`Super + Arrows`	Move focus between windows
`Super + Shift + Arrows`	Swap tiled windows
`Super + T`	Toggle tiling / floating
`Super + F`	Fullscreen
`Super + Alt + F`	Full width
`Super + Ctrl + F`	Fullscreen inside the window
`Super + J`	Change tiling orientation
`Super + = / -`	Resize tiled window
`Super + Shift + = / -`	Resize tiled window (other axis)
`Super + Home / Alt + Home`	Save / restore window width
`Super + O`	Pop a window
`Super + G / Alt + Tab`	Window groups
`Super + Q`	Close a window

HYPRLAND — WORKSPACES

`Super + 1..0`	Switch to workspace 1-10
`Super + Shift + 1..0`	Move window to workspace (follow)
`Super + Shift + Alt + 1..0`	Move window to workspace (no follow)
`Super + Tab`	Next workspace
`Super + Shift + Tab`	Previous workspace
`Super + Ctrl + Tab`	Return to former workspace
`Super + L`	Toggle workspace layout (dwindle / scrolling)

HYPRLAND — SCRATCHPAD

`Super + S / Super + ` `	Toggle the scratchpad
`Super + Alt + S / Super + Shift + ` `	Move window to scratchpad

HYPRLAND — PANELS & TOOLS

`Super + Ctrl + A`	Audio panel
`Super + Ctrl + B`	Bluetooth panel
`Super + Ctrl + W`	Network panel
`Super + Ctrl + D`	Display panel
`Super + Ctrl + C`	Screenshot / capture menu
`Super + Ctrl + E`	Emoji picker
`Super + Ctrl + V`	Clipboard history
`Super + Ctrl + T`	Activity monitor (btop)
`Super + Ctrl + Q`	Calculator
`Super + Ctrl + L`	Lock the computer
`Super + Ctrl + P`	Power panel
`Super + Alt + Space`	Application launcher
`Super + Ctrl + Shift + Space`	Theme selector
`Super + Ctrl + Space`	Background selector
`Super + Ctrl + Alt + Delete`	Toggle laptop display

TERMINAL & SHELL

`Super + Alt + Return`	Launch a terminal with Tmux
`Ctrl + R`	Fuzzy history search
`Ctrl + C`	Interrupt the foreground process

TMUX — SESSIONS & WINDOWS

`Ctrl + B / Ctrl + Space`	Tmux prefix (press, release, then the letter)
`Super + Alt + K`	Show Tmux keybinding help
`Prefix + c`	Create a new window
`Prefix + k`	Close the current window
`Prefix + r`	Rename the current window
`Prefix + s`	List sessions
`Prefix + d`	Detach from the session
`Alt + ← / →`	Switch between windows
`Alt + Shift + ← / →`	Move window left / right

TMUX — PANES

`Prefix + v`	Split pane beside (vertical divider)
`Prefix + h`	Split pane below (horizontal divider)
`Alt + Return / Alt + Shift + Return`	Split pane without the prefix
`Ctrl + Alt + Arrows`	Move between panes
`Ctrl + Alt + Shift + Arrows`	Resize the current pane
`Prefix + z`	Zoom the current pane
`Prefix + x / Alt + Escape`	Close the current pane
`Alt + ↑ / ↓`	Move between sessions
`Prefix + q`	Reload Tmux configuration

NEOVIM / LAZYVIM

`Super + Shift + N`	Launch the editor
`Space`	Leader key -- opens the leader menu
`Space Space`	Fuzzy file finder
`Space S G`	Project-wide grep
`Space E`	File sidebar
`Space G G`	Lazygit integration
`Ctrl + ← / →`	Resize the sidebar

AI AGENTS

`Super + Shift + Ctrl + A`	Launch the default coding agent

SYSTEM RECOVERY

`Ctrl + Alt + F2`	Switch to a TTY (recovery)
